# Virtual Classroom Rules and Consequences

| General Zoom Classroom Rules |   |
|------------------------------|---|
| Category                     | Expectation   |
| Dress Code                   | <ul style="list-style-type: none"> <li>• School appropriate attire must be worn since students are expected to have their camera turned on during class. This means students must be appropriately covered (No low-cut or mid-drift tops visible on camera). Clothing must not contain any profane language or images that would not be allowed in the physical school building, this includes suggestive images that lead the observer to assume the content is inappropriate.</li> <li>• In a virtual setting we will continue to prohibit gang-associated wear such as paisley bandanas.</li> </ul>  |
| Cell Phones                  | <ul style="list-style-type: none"> <li>• Cell phones must be silenced and put away just like during in person learning.</li> <li>• Cell phones are not to be used to record others (virtually or in person). Students are not allowed to record lessons or take pictures of virtual lessons (this includes pictures of staff members and students).</li> <li>• Students should not use cell phones as calculators during math class. Instead, they must use their computer. This is the expectation for 2 reasons:               <ul style="list-style-type: none"> <li>◦ Cells phones are distracting and students may be texting and/or cheating if a phone is out</li> <li>◦ Computer-based standardized tests require use of a calculator on the computer. | Video                        | <ul style="list-style-type: none"> <li>• Always turned on, unless teacher directs student to turn it off</li> </ul>   |
| Sound/ Microphone            | <ul style="list-style-type: none"> <li>• Always muted, unless the teacher says otherwise</li> </ul>   |
| Use of Chat                  | <ul style="list-style-type: none"> <li>• Used as directed by the teacher</li> <li>• Never to be used to send private messages to others during class (Teacher can disable this in settings)</li> </ul>  |
| Background                   | <ul style="list-style-type: none"> <li>• Students may make custom backgrounds in Zoom</li> <li>• Custom or real life backgrounds must not contain any profane language or images that would not be allowed in the physical school building, this includes suggestive images that lead the observer to assume the content is inappropriate.</li> </ul>   |
| Attendance                   | <ul style="list-style-type: none"> <li>• Attendance to all live Zoom classes is required.</li> <li>• Students must join <b>before</b> class begins so that the class can begin on time.               <ul style="list-style-type: none"> <li>◦ Teachers will start the Zoom meeting a couple minutes before the start of class to ensure that students are able to enter the meeting and class can begin on time.</li> </ul> </li> </ul>  |

|                | <ul style="list-style-type: none"> <li>• If the teacher experiences technical difficulty, such as a power or internet outage and a class abruptly ends, students are expected to rejoin the class and be in the Zoom “waiting room” for 10 minutes. If after 10 minutes, the class cannot resume, that class will be cancelled for that day.</li> </ul>   |
| Breakout Rooms | <ul style="list-style-type: none"> <li>• Students are expected to follow the clear directions given by the teacher in terms of the role each person must play in the breakout room</li> <li>• Conversation must be on task- Teachers will pop in and out of breakout rooms to check for understanding and ensure compliance and full engagement (ex: no other tabs open and not completing other work)</li> </ul> |

# **Bullying and Harassment Policy**

*Student safety is a priority at Neely's Bend as we know that acts of bullying and harassment cause school to be unsafe. In accordance with Tennessee law, bullying is strictly prohibited and will result in immediate disciplinary action. The determination of appropriate consequences will include the consideration of: the severity of behavior, the context of the situation, and the documented history of behavior of all involved students. The following definitions are adapted from the MNPS Bullying and Harassment Policy.*

## **Bullying/Hazing**

Bullying is any intentional act that is severe, persistent, or pervasive and substantially interferes with a student's educational benefits, opportunities or performance, and has the effect of:

1. Physically harming a student or damaging a student's property;
2. Knowingly placing the student or students in reasonable fear of physical harm to the student or damage to the student's property;
3. Causing emotional distress to a student or students; or
4. Creating a hostile educational environment.

Bullying may involve, but is not limited to, the following: unwanted teasing, threatening, intimidating behavior, cyber bullying, physical bullying, theft, sexual, religious, or racial harassment and public humiliation. Bullying that involves a protected class must be reviewed for potential civil rights violations.

## **Harassment**

Harassment may take many forms and is not limited to conduct that constitutes bullying. Harassing conduct may include verbal acts and name-calling; graphic and written statements, which may include use of cell phones or the internet; or other conduct that may be physically threatening, harmful, or humiliating if such conduct is based on a student's real or perceived race, color, religion, national origin, handicap/disability, sexual orientation, ancestry, or sex, gender identity, gender expression, and appearance.

Harassment does not have to include intent to harm, be directed at a specific target, or involve repeated incidents. Harassment creates a hostile environment when the conduct is sufficiently serious (severe, pervasive, or persistent) and objectively offensive so as to deny or interfere with or limit a student's ability to participate in or benefit from the programs, services, activities, or opportunities offered by a school or MNPS.

Behaviors that constitute sexual harassment may include, but are not limited to sexually suggestive or offensive remarks; sexually suggestive pictures, sexually suggestive gesturing, verbal harassment or abuse of a sexual nature, harassing, abusive or sexually suggestive or offensive messages sent by e-mail or other electronic medium, subtle or

direct propositions for sexual favors, and touching, patting, or pinching. Sexual harassment may be directed against a particular person or persons, or a group, whether of the opposite sex or the same sex.

### **Cyber Bullying**

The use of electronic information and communication technologies, including, but not limited to email, cell phone and pager voice, text, still photograph or video messages, instant messaging, defamatory personal websites, social networking sites and online personal polling sites or journals, to support deliberate and harassing behavior that frightens, harms or embarrasses others and unreasonably impacts or disrupts the orderly operation of the school environment.

# Technology Agreement

## ACCEPTABLE USE POLICY (AUP) FOR TECHNOLOGY: PROCEDURES AND GUIDELINES

The following procedures and guidelines shall apply to the use of electronic resources by students, staff and guest users within LEAD Public Schools ("LPS"). Electronic resources are defined as computers, networks, INTERNET, electronic mail (email), audio equipment, VCR's, DVD/Blue-ray players, televisions, telephones, etc. Independent access to any of these electronic resources by students will not be granted until a permission agreement form, a copy of which is attached hereto, is signed by the student. If the student is under 18 years of age, the permission agreement form must also be signed by the student's parent or legal guardian

### STUDENT USE

Access to electronic resources is to enhance the curriculum and is granted for educational purposes only. It is a privilege, not a right. Use of electronic resources will be monitored for proper use and for achieving the academic objective. Teachers will make a reasonable effort to supervise the use of electronic resources at school.

#### A. Internet Access

Internet access consists of visiting predetermined sites or for educational research purposes. Research through the Internet is controlled by using the best possible technology to block as many inappropriate sites as possible. However, parents must understand that their child may encounter sexually explicit or other objectionable material. The student is responsible for not actively pursuing material that could be considered offensive. Parents/Guardians are encouraged to supervise the use of email by any minor children in their care.

#### B. Email Access

Email access may consist of individual student accounts for all 5-12 grade students. Parents should understand that email provides the ability to contact unknown people all over the world, outside of the direct supervision of LPS. The school system will take reasonable steps to filter student email for objectionable content. However, students may encounter sexually explicit or other objectionable material. The student is responsible for constructing and sending email containing appropriate language and pertaining to appropriate subjects and for immediately reporting any inappropriate email received from another person. Email accounts are the property of LPS. Parents/Guardians are encouraged to supervise the use of email by any minor children in their care.

#### C. Consent for Use

By signing the attached acknowledgement, you hereby accept and agree that your child's rights to use the electronic resource provided by LPS are subject to the terms and conditions set forth in LPS policy/procedure. Please also be advised that data stored in relation to such services is managed by LPS pursuant to LPS, Metro Nashville, State, and

Federal policy, You also understand that any e-mail address provided to your child can also be used to access other electronic services or technologies that may or may not be sponsored by LPS, which provide features such as online storage, online communications and collaboration, and instant messaging. Use of those services are subject to either standard consumer terms of use or a standard consent model. Data stored in those systems, where applicable, may be managed pursuant to the agreement between the end-user and the service provider. Before your child can use online services, he/she must accept the service agreement and in certain cases, obtain your consent.

#### **D. Publication of Student Works**

Prior to the publication of any student work, video, or images, a Parent/Guardian Permission Form must be signed by both the student and parent/guardian. Signing this AUP constitutes permission to publish any student work hosted in the electronic mediums covered by this policy

#### **E. Technology Protection Measures and CIPA Compliance**

LPS recognizes an increase in 21st Century Skills is vital to the success of our students; schools are now increasingly using the powerful Web 2.0 tools available on the Internet.

Our school district currently uses a third-party filtering solution provided by ENA at the network level, in conjunction with a filtering and monitoring solution provided by GoGuardian which operates at the student Google Account/Chromebook level. We employ WPA2 passphrase-based Encryption/Authentication to secure wireless communications and control access to the network.

#### **F. Digital Storage**

Anytime/anywhere access to network electronic (digital) storage is provided by LPS in the form of Google Drive storage. This online storage is provided for school-related work, not personal photos, music, etc. All files stored in this online storage should be related to school work and are fully subject to the terms of the AUP.

#### **G. Care of Chromebook**

Students are responsible for the care of their chromebook and it is expected that all chromebooks will be returned to LPS in good working condition absent normal wear and tear. If a chromebook is returned with excessive wear and tear and or is lost / stolen the student may be held responsible for the cost of the chromebook minus depreciation

#### **F. Cyberbullying**

Cyberbullying is defined as the use of electronic information and communication technologies, including, but not limited to email, cell phone and pager voice, text, still photograph or video messages, instant messaging, defamatory personal web sites, social networking sites and online personal polling sites or journals, to support deliberate and harassing behavior that frightens, harms or embarrasses others and unreasonably impacts or disrupts the orderly operation of the school environment.

LEAD Public Schools will continue to adhere to the MNPS disciplinary guidelines outlined in the MNPS Student-Parent Handbook when responding to reported instances of cyberbullying. Additionally, LEAD follows mandated reporter guidelines. Therefore, if content turned over to school staff during investigations into reported cyberbullying

suggests that a student is unsafe or is being victimized in any way, all LPS employees will provide all necessary information to the authorities, be it the Department of Children's Services or the local police.

## MONITORING

LPS maintains the right to limit access to electronic resources by technical or human barriers. Network administrators may review files and communications, including without limitation email and Internet communications to maintain system integrity and ensure that users are using the system responsibly. Users should not expect that files stored on local computers, LPS servers, or LPS-provided internet resources will be private. The content of certain files may additionally be subject to inspection by the public under open records laws.

## SANCTIONS

Violations of the LPS AUP may additionally result in disciplinary action at the building or the district/network level, including but not limited to employment termination or student expulsion, depending on the seriousness of the offense.

When applicable, law enforcement agencies may be involved.
